**Reports to:** Medical Director

**Responsible for:** No direct line reports

---

**JOB DESCRIPTION**

**The Hospice**

Thames Hospice is a thriving independent charity based in Windsor, providing specialist palliative care for adults with advanced life-limiting illnesses, as well as support for their loved ones and carers. The Hospice serves the diverse population of East Berkshire and South Buckinghamshire, and has developed excellent links with the local acute trust, Frimley Health NHS Foundation Trust.

There are currently exciting plans to build a new, state-of-the-art hospice by Bray Lake, in the Royal Borough of Windsor and Maidenhead, which will allow us to expand and improve our inpatient, outpatient and education facilities.

The clinical services consist of:

- A 17-bedded Inpatient Unit
- Day Therapy Unit
- Multidisciplinary outpatient clinics
- Community Palliative Care Team which includes a Rapid Response service
- 24/7 advice line
- Single Point of Access (SPA) for specialist palliative care services in East Berkshire
- Patient and Family Support team including counselling, bereavement services and pastoral care
- Physiotherapy and Occupational therapy
- Complementary therapy including acupuncture
- Lymphoedema service

It costs nearly £8 million per year to run the hospice, and whilst we receive 30% of our funding from supportive NHS commissioners, we rely on our community to fund the remaining 70%. We have busy and passionate fundraising and retail directorates, with 19 charity shops throughout the hospice catchment area. We have an incredible army of volunteers who support the hospice across all sectors, without whom we could not operate.

The Care Quality Commission rated Thames Hospice as Good after their last inspection in July 2016.
The Role Summary

To be a member of a multidisciplinary team providing high quality, holistic care under the supervision of the medical consultants. It is expected that the postholder will work flexibly alongside colleagues to provide the best possible service for patients and those close to them.

1. To provide a medical service to hospice inpatients
2. To provide medical care to outpatients, Day Therapy Unit patients and patients at home (dependent on experience)
3. To provide clinical and educational support to junior medical staff
4. To contribute to wider MDT education

Key Working Relationships

- The consultant-led medical team comprising 3 consultants (2.7 WTE across hospice, community and hospital settings), 4 specialty doctors (3.6 WTE), GP trainee and FY2 doctor
- The multi-professional team in the Inpatient Unit
- The multi-professional team in the Day Therapy Unit
- The multi-professional Community Palliative Care Teams
- The support staff and volunteers across the hospice services
- The hospital Palliative Care Teams of Frimley Health NHS Foundation Trust and Royal Berkshire NHS Foundation Trust, as well as other hospital-based clinicians
- Primary care colleagues, including GPs, District Nurses and Community Matrons
- Disease-specific teams such as the AIR, Heart Failure and neurological teams

Main Responsibilities and Duties

CLINICAL - INPATIENT

1. To share in the provision of holistic medical care, working closely with other members of the medical and wider multi-professional team. This will include:
   - contributing to the planning of admissions
   - clerking in of new patients
   - review of patients
   - constructing a management plan, seeking advice appropriately
   - planning discharges
   - facilitating advance care planning

2. To attend and support daily ward handover meetings, provide specialty doctor led ward rounds/patient reviews and to participate in consultant ward rounds

3. To support and supervise more junior medical staff (GP trainees and FY2 doctors) in their day to day practice on the ward

4. To undertake interventions such as venepuncture, cannulation, catheterisation and abdominal paracentesis

5. To be a core member of the multi-disciplinary team (MDT) meetings

6. To support and meet with relatives and carers
7. To liaise with primary and secondary care colleagues, community palliative care nurses and other community services as appropriate

**CLINICAL - OUTPATIENT AND AT HOME**

1. To provide medical outpatient support to patients attending the Day Therapy Unit or medical outpatient clinic

2. To provide medical support to patients at home, in conjunction with the Community Palliative Care team (dependent on experience)

3. To share in providing medical advice and support to the 24/7 advice line CNS and Rapid Response team, along with consultants during normal working hours (out-of-hours support provided by consultants)

**CLINICAL - GENERAL DUTIES**

1. To keep accurate, clear and up-to-date medical records

2. To support and engage with the implementation of a new hospice electronic health record and other electronic palliative care systems

3. To complete discharge summaries for primary care within 24 hours of discharge, and provide other written communications to relevant teams as required

4. To inform senior medical staff of any clinical or management issues requiring consultant review or advice

**TEACHING**

1. To support hospice junior medical staff (FY2 and GP trainees) with informal and bedside teaching/training

2. To devise and deliver regular tutorials for our junior medical staff (FY2 and GP trainees)

3. To contribute to the educational programmes provided by the hospice for multidisciplinary health professionals

4. To support any visiting health professionals (e.g. GP registrars; medical, nursing or paramedic students) to benefit their hospice visit or placement

**EDUCATIONAL/QUALITY IMPROVEMENT**

1. To participate in regular team meetings, clinical and audit meetings

2. To contribute to the regular medical journal club

3. To support service improvement projects and audits in progress, including mentorship of junior doctors in this area

4. To actively identify areas for service improvement and audit

5. To attend and contribute to relevant in-house educational meetings

6. To participate in continuing professional development activity as agreed at appraisal with your consultant supervisor
OUT OF HOURS (OOH) SERVICE

- The on call commitment is non-residential, covering the inpatient unit on a 1st on-call rota
- This is currently a 1 in 5 rota with prospective cover, involving one weekday night per week and one in five weekends (Fri pm to Mon am)
- OOH work includes inpatient ward reviews and clerking new admissions, and it is expected that the doctor will be on-site on both Saturdays and Sundays (9am-5pm, or until the jobs are completed)
- Bank holidays are shared amongst the rota participants
- This on call work attracts an on-call supplement as per the NHS SAS contract, as well as rostered TOIL (time-off-in-lieu)
- There is a plan to trial evening medical cover in 2019 (e.g. to provide medical cover until 7pm on a rotational basis)
- The 1st on call doctor is supported by a 2nd on call consultant

PROFESSIONAL SUPPORT AND DEVELOPMENT

- It is essential that the candidate participates in annual appraisal, which will allow discussion of professional development and training needs
- Mandatory training must be completed and kept up to date as per the hospice requirements
- All medical staff will have regular one-to-one meetings with their line manager
- The medical team is supported by a visiting Clinical Psychologist who offers individual sessions
- The hospice runs regular Schwartz Rounds for all staff, and reflective sessions for clinical staff as needed

CONDITIONS OF SERVICE

The post holder will have a Thames Hospice contract of employment. This will mean loss of NHS continuity of service.

1. The post holder must be fully registered with the General Medical Council
2. The post holder must have adequate and appropriate medical indemnity cover – the hospice will contribute to a proportion of any medical defence/protection costs for the period of employment
3. The salary will be guided by the NHS staff grade/specialty doctor salary scales
4. The post holder may be able to continue with the NHS superannuation scheme
5. Annual leave entitlement is 6 weeks per year plus bank holidays pro rata
6. Study leave and a study budget is provided
7. Thames Hospice is committed to being an equal opportunities organisation. It is committed to promoting equal opportunities and preventing discrimination. This policy applies to both its service delivery and to its own employment practices. You will be willing and able to demonstrate commitment to Thames Hospice Equal Opportunities Policy

Please note this job description is intended as an outline of the duties of the post – other duties may be required according to the needs of the service. The job description may be subject to agreed amendment depending on the experience or training needs of the post holder.

Job planning will take place with the Medical Director at the start of the post, taking into account both the post holder’s developmental and service needs.
OUR VALUES

Our values are the essence of our culture and inspire our behaviour. They are:

**Compassion** – we treat everyone with kindness and compassion, providing a secure and caring environment

**Excellence** – we are committed to delivering and demonstrating excellence in everything we do

**Collaboration** – we recognise the best quality of care is achieved when we work as a team, leveraging the skills and experience of individuals as well as our healthcare and community partners

**Integrity** – we always act with integrity and strive to demonstrate ethical standards of behaviour

**Respect** – we believe in treating everyone with dignity and respect

**Ambition** – our desire and determination to succeed in meeting the growing needs of our local community

**Commitment** – we are committed to providing the best palliative and end of life care to all who need us now and in the future
